Interested in owning your own home?

Our low-cost homes are energy efficient, offer homeowners an open floor plan, quality construction, and the choice of exterior colors, flooring, countertops, lighting packages, Whirlpool appliances and more.

Habitat for Humanity homes are affordable thanks to volunteer labor from groups and individuals in the community. Qualified Partner Homebuyers purchase their home for the cost of materials and professional services, through a no-profit, zero-interest loan. With the Habitat for Humanity loan, both the overall cost of the home and the monthly payment are lower than with a conventional mortgage.

Each family or individual is called a Partner Homebuyer because this is a true partnership, not a hand out. Come see if that partnership might work for you!
