Coming together to build stronger, safer communities.

Volunteer Information

Looking for a Meaningful Volunteer Opportunity?

Habitat for Humanity's Women Build program provides an opportunity for women to take a proactive step in serving their community. During the build process, women who want to learn how to build and construct a home are invited to roll up their sleeves and volunteer! No experience necessary!

Volunteers work under the guidance of construction professionals, and alongside other volunteers and future Habitat homeowners. Whether you are learning new skills or simply adding a few to your tool belt, this is a rewarding experience for all involved, and improves the community that you share.
